FAQs

WHAT TO EXPECT?

Prior to every professional treatment, your Medik8 professional will conduct a consultation to ensure that the treatment is customised to target your number 1 priority and to maximise results.

Medik8 facial treatments start with a deep double cleanse to dissolve makeup and impurities. Powerful yet gentle exfoliation techniques follow to create a perfectly prepared skin. Facial tension melts away with targeted aromatherapy massage before one of our innovative mask formulations deliver an intense shot of active ingredients. All of this whilst your Medik8 professional performs a rejuvenating scalp massage. To conclude, Medik8 professional solutions will be applied, tailored to the specific needs of your skin and following the CSA Philosophy.

AND FOR BODY?

Finely ground bamboo particles exfoliate and invigorate for complete skin rejuvenation. Targeted massage techniques envelope the body with a powerhouse of essential oils. The results? Soft skin and elimination of muscle tension, and stress. To conclude all treatments, Medik8 professional solutions will be applied.

If you would like to book a course of facials we recommend 6 professional treatments spaced evenly over 4-6 weeks.

HOW TO PREPARE YOUR SKIN FOR A MEDIK8 PROFESSIONAL FACIAL?

To truly maximise the results of your Medik8 professional facial, we recommend a consultation with a Medik8 trained professional for a bespoke CSA skincare regime (vitamin C plus Sunscreen by day, vitamin A by night). We suggest following a CSA homecare regime for at least 2 weeks* prior to treatment to see the most benefit.

* Timeframe may vary dependant on skin condition/type.
Body Treatments do not require any specific preparation.
